FOR SOCIAL POLICY AND MANAGEMENT

## UNIVERSAL HEALTH COVERAGE: Options for Implementation

Key leading organizations, including the World Health Organization, the World Bank, USAID, and the United Nations are building momentum for all countries to achieve Universal Health Coverage (UHC). Global Health faculty at the Heller School are responding to this global movement by offering an intensive weeklong Executive Training Session for high-level health professionals from around the world on implementing UHC. As countries move beyond the planning stages of achieving UHC, the next essential steps will be in proper implementation.

Join us for this executive course which takes a technical approach to understanding UHC and how to move towards implementation in your country. Drawing on the knowledge and experiences of Brandeis faculty and notable speakers from leading organizations such as the World Bank and USAID, the course focuses on understanding the following key UHC topics:

- **Enrollment**
- **Payment**
- **Financing/Costing**
- **Political Economy**
- **Management/Leadership**
- **Service Delivery**

**JULY 16—20, 2018**

**Waltham, Massachusetts, USA**

### **PROGRAM FEE**

\$5,000 per person includes the program fee, housing and food. A discount of \$500 per person will be given to five or more participants from the same country.

### **APPLICATION DEADLINE**

APRIL 15, 2018

### **FOR MORE INFORMATION**
