

JUDITH KRIEGER GARDNER MEMORIAL ENDOWMENT

The Judith Krieger Gardner Memorial Endowment honors the memory of Judy Gardner, a beloved and inspirational teacher, researcher, colleague, and friend. This endowment in her memory allows Heller to support students interested in children and families.

This fund was created by her parents Sylvia and Bernard Krieger in 1996. Her career was dedicated to finding support for families and children. She possessed an enduring passion for the health and well-being of children, and a deep respect for the challenges parents face in contemporary American society.

As a member of the Heller School faculty, Judy was particularly devoted to the students who sought her intellectual guidance and emotional support throughout their graduate school experience.
