

# A study of experiences of disabled people of color accessing home and community-based services

Brandeis University is doing a study to learn about the experiences of disabled people of color receiving home and community-based services. We are interested in learning what services you receive, what services you need, and how culturally and linguistically appropriate the services are. Information from this study will be used to advise government agencies and providers.

- ✓ Are you a person with a disability who receives Medicaid home and community-based services?
- ✓ Are you a person of color?
- ✓ Are you 18 years of age or older?
- ✓ Do you live in the United States?

If you answered **yes** to each of the questions above, you may be eligible to participate.

Participation includes 1 interview over the telephone or video-conference. The interview will last about 1-1 ½ hours. Participants will receive a \$50 gift card for their time.

If you are interested in participating, please contact Miriam Heyman, Senior Research Associate at the Lurie Institute for Disability Policy, at [hcbaccess@brandeis.edu](mailto:hcbaccess@brandeis.edu) or at 781-736-8165.
