

October 2018 Research Webinar Chat

- 00:29:49 Tanya Allain: Hi Everyone - feel free to add your thoughts to the chat as the presentation is happening!
- 00:30:49 Jody Hoffer Gittel: I guess an option between home care and hospitals would be long term care facilities/nursing homes. What are the trends with respect to that care option?
- 00:32:23 Shyamal Sharma: at the Harvard Dental Group
- 00:33:11 Jody Hoffer Gittel: shyamal what are you referring to?
- 00:33:51 Shyamal Sharma: Jody, Institutional care such as LTC facilities/Nursing homes have been high-cost options. CMS/Medicare ha been moving away from that model unless medically or otherwise necessary.
- 00:34:26 Jody Hoffer Gittel: got it
- 00:34:30 Shyamal Sharma: Sorry, please ignore the Harvard Dental Group. My bad.
- 00:38:26 Jody Hoffer Gittel: with RC data it's good to get the raw data and do the analyses on your own, for research projects - RCA shares this in a spreadsheet
- 00:41:44 Nancy Whitelaw: what does IPEC stand for?
- 00:42:37 Lauren Hajjar: Interprofessional Education Collaborative- I think
- 00:42:38 John Paul Stephens: Maybe it's Inter-Professional Education Center?
- 00:43:24 John Paul Stephens: It would be great to discuss how to manage the institutional norms that still promote silos even while the intervention is underway
- 00:50:12 Jody Hoffer Gittel: sure, and also the underlying structures like accountability, rewards, hiring practices, other training practices, job design - really important questions
- 00:56:10 Tanya Allain: Hi Janet! Thanks for joining.
- 00:56:39 Janet Steinkamp: Apologies for joining late.
- 01:04:00 Shyamal Sharma: Denise, have you approached the local VNA for engaging them in spreading awareness about inter professional teaming and teamwork?
- 01:05:00 Denise Burgen: Yes- I have met with local VNAs about this work
- 01:05:45 Denise Burgen: IPEC is Interprofessional Education Collaborative
- 01:06:33 Shyamal Sharma: I am curious about how they buy-in and see themselves as catalysts for promoting systemic change in this area.
- 01:13:49 Tanya Allain: What resonated with you from Denise's presentation and/or Christine's reflection? How does this relate to the work you are doing in your respective context/sector?
- 01:35:46 Lauren Hajjar: What type of trust did you find that mutual respect was related to?

01:36:40 John Paul Stephens: We used a network-style, single-item measure of trust, designed to resemble the RC dimension questions

01:37:44 John Paul Stephens: We now include McAllister's (1995) cognitive and affective trust (11 item) measure. I forget which sub-scale correlated more positively with respect in our newer surveys, but there was a clear difference

01:38:38 Lauren Hajjar: Interesting. Would love to follow up offline about this at some point.

01:42:18 John Paul Stephens: Have to run, all. Fantastic learning today. Thanks Denise and Christine!

01:42:30 Lauren Hajjar: Thanks Denise and Christine! Great to see you all.

01:43:10 Nancy Whitelaw: wonderful webinar - thanks Denise and Christine for sharing your thoughts, and everyone for the discussion
