LIST of CONSORTIUM COURSE:

School	Course #	Course Name	Schedule	Number of Credits

* All consortium courses should include an attached detailed description

Instructions in filling up you ILP:

The Individualized Learning Plan (ILP) lists course requirements and electives for the Heller MS/MBA program and guides you in documenting your planned course of study. With the assistance of IHPM faculty you should plan the courses that you are required to take as well as other courses you want to take during the Fall and Spring semesters 2019-2020.

Types of courses and course limits:

- **Required courses** – these are courses that you need to take in order to graduate.
 - All required courses are listed in this ILP.

- **Elective courses** – there are no prescribed elective courses. These are courses that will help enhance/ improve or develop your knowledge base or skill set.
 - Since you are an MS/MBA student, you are in the Health Care Concentration by default. Of the elective course you choose, **8 credits should be Health related** (MBA Health Care concentration electives or MS Health electives)
 - If your electives will result in **more than 18 credits per semester (with the exception of Spring 1)** written permission of the MBA Program Director is required and will be permitted only in exceptional circumstances.
 - Elective courses can be taken at Heller, other Brandeis schools (ie. International Business School, Graduate School of Arts & Sciences, Brandeis Undergraduate College of Arts & Sciences with extra course requirements), or at a consortium university.
 - You can take more than one elective course at Heller or other Brandeis schools.
 - You can only take one course at a consortium university per semester.

- **Audit courses** – these courses are completely optional and will not be added to your total number of official credits taken. Audited courses will require the permission of the professor. Not all professors allow students to audit the course. Each professor will have different audit requirements. If you are able to fulfill them, the audited course will appear in your official transcript as an audited course.

Submit your approved ILP to the MBA Program Manager (Norma DeMattos).

You may drop or add courses within the policies and procedures of the University. Whenever you change your selection, please notify the MS Program and the MBA Program through their Program staff.
